# SAFETY EQUIPMENT

**MULTISAFE SAFETY GLASSES** are sleek and sporty, lightweight, with all around impact protection. Our safety glasses have a popular design to insure worker compliance. The Multisafe safety glasses are snug and have a comfortable fit to help minimize slippage and provide full brow protection. The lens blocks 99.9% of UV-A light. The hard coated 100% polycarbonate lens feature dual 8" base curvature area for wide, unobstructed vision. Meets or exceeds Ansi Z83.1-2003 compliance standards.

**SG-C100**

**MULTISAFE SAFETY HELMETS** are molded from high density polyethylene for maximum protection. The safety helmet features an easy turn knob that allows adjustment without removing the helmet. The no-slip hold maintains the desired fit even in the most physically active jobs or extreme weather conditions. Helmets fit 40 different head sizes, 6 ½-8. The helmet comes with directions, headband and chin strap. Meets ANSI Z89.1-2009, Type 1, Class C, E, & G requirements. White.

**SH-WH1**

**SV-LM1**

**SV-OM1**

**MULTISAFE HIGH VISIBILITY MESH POLYESTER VESTS** have 1" vertical reflective stripes. Our high-intensity lightweight, durable fluorescent vests are easily seen day or night for optimum visibility and safety. Multisafe vests have a contrasting black cotton binding around edges, elastic side straps for fitting, and a hook and loop front closure. Conforms to MUTCD standards.

# SAFETY TRIANGLE KIT

**MULTISAFE SAFETY TRIANGLE KIT** includes three highly reflective 17" triangles. When placed along roadside, safety triangles alert oncoming traffic of hazard, emergency, or disabled vehicle. The triangle kit has three visible orange plastic edges with red reflectors on both sides. This self-contained unit needs no power source. The weighted base and no-skid rubber feet keep the triangle in place in high winds. Instructions for use printed on case and triangle. No tools required for set-up. Easy to erect for day or night use. Meets or exceeds DOT requirements.
